

○ Unity Job Post

📌 hiring

We are looking for a Unity Developer who will be a part of the development team that is behind 9PM Football Managers, an innovative and competitive football manager mobile game. You will develop Unity mobile app using a variety of tools and systems to push the limits of mobile game development.

- Design, code, analyze, and test systems for Unity applications (build targets are iOS and Android).
- Design and develop Unity UIs and implement APIs.
- Introduce and present the use/nuances of newly designed products to clients.
- Handle software updates, patches, and bug fixes.
- Develop applications for time-sensitive projects while considering business/system requirements.
- Communicate with a team of developers, designers, project managers, and other personnel to ship new features.
- Maintain project, drafts, files, codes and scripts in an organized manner that allows other team members to make edits/suggestions/changes.
- Continually learn about mobile trends, similar game domain, and other information that will affect the functions of applications in development.

Requirements

- Bachelor's degree in interactive media, software/game development, computer science, or similar required.
- 2 years of professional experience in Unity3D development or similar platforms.
- Experience with Android/iOS deployment.
- Comprehensive knowledge of Unity and C#, including experience with scripting, textures, animation, GUI styles, new UI system, UI object pooling, pagination, pixel perfect design implementation and fundamental client operations, such as user session management.
- Experience with multiplatform mobile application development and

deployment.

- Understanding of functional and object-oriented programming best practices.
- Familiarity with Xcode for iOS, Android Studio for Android and asset utilization best practices within Unity3D.
- Basic trouble shooting, analytical, organization skills and knowledge of various technologies within area of discipline.
- Interpersonal skills and patience necessary in order to interact effectively with others.
